Dear Tim Smith,

I'm sorry that no longer copies of Case Open are yet available. It is beyond me now.

There is much supposedk information on the JFK assassination but most is the mythology of both extremes. I'm gaad you have access to copies of the Meagher and Roffman books. Each in its own was is excellent.

You say you have the Whitewash books. Do you have Post Mortem, which I published in 1975?

Or this year's NEVER AGAIN!, published by Carroll & Graf?

If not, and I do not reaall your earlier letter, I think you will want them. Eapecially on the Commission and the medical and related evidence.

NEVER AGAIN! on JAMA, too.

Thanks for your comments and good wishes.

Good luck with your thesis,

Harold Weisberg
